

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. BUSINESS DIRECTORY OF TOWNS, Alphabetically Arranged.

PRELIMINARY INFORMATION.

1. The names of all the Towns and all the Post Offices in the State, except those which have North, East, South, West or Center prefixed to the names of the towns of which they are a part, are here alphabetically arranged.

2. For villages above excepted, look under the name of the town. But East Kingston, North Hampton, South Hampton and Westmoreland are *towns*.

3. After the name of each town, you find the name of the *county* in which it is located, the population in 1900, the direction and approximate distance from Concord and from the Shire town of the county, the way of reaching it by rail, the town officers and the professional and business men, arranged under different heads, as nearly alphabetically as is convenient, some regard being had to economy of space.

4. Merchants are supposed to keep a general assortment, and physicians to be "old school," unless otherwise specified.

5. All these items are referred every year, usually between Mar. 1 and Mar. 30, to the Town Clerks, Postmasters or other prominent men of the several towns and villages for correction.

6. We earnestly solicit corrections from all other persons who may notice things which they *know* to be errors.

7. Of course changes are constantly occurring, so that one need not expect to find this Directory absolutely correct all the year round, but use it with this understanding and you will find it very valuable.

8. To all who have assisted in the preparation of this Register the editor expresses his sincere thanks.

Bretton Woods,

THE HEART OF THE WHITE HILLS

AND THE

Centre of the Good Roads Movement in Northern New Hampshire.

Bretton Woods was the Colonial name of the town of Carroll, given in honor of Sir Thomas Wentworth, the principal grantee, and whose country seat in Yorkshire, England, was called Bretton Hall.

The name Bretton Woods now covers the great estate of the Mount Pleasant Hotel Company and replaces the title Mount Pleasant House that formerly applied to the Post Office and the R. R. Station.

The two great hotels,

THE Mount Pleasant and THE Mount Washington

built and made beautiful in themselves and their surroundings as a tribute of love to his native state by the late Joseph Stickney, of Concord, are now worthy monuments of a man New Hampshire should not forget.

The hotels will continue under the management of

UNITED STATES INVESTOR

*Published by The Investor Publishing Co., Frank P. Bennett, Treasurer,
530 Atlantic Avenue.*

A weekly journal devoted to the discussion of public affairs, special attention being given to the economic and industrial situation in the United States and in such parts of the world as are commercially and industrially related to this nation.

Its Department of Financial, Mining, Oil, Insurance and Real Estate Inquiries is unique in American journalism. Subscribers to the INVESTOR are entitled to the service of this department without extra charge. Inquiries relating to any part of the United States or the civilized world are answered with the utmost promptitude, with absolute frankness, and with a high degree of efficiency. The INVESTOR'S reportorial staff comprises a large number of experienced observers of industrial financial affairs; furthermore, this publication, in answering the inquiries submitted to it by subscribers, has the co-operation of local experts in every section of the United States and throughout the world. Over FIFTY THOUSAND inquiries answered in twelve years.

The "Topics of The Week" are a valuable feature, the aim of this department being to present the salient points of the speculative situation, not only in connection with stocks listed on the leading stock exchanges of the country, but also in connection with the vast number of unlisted securities.

Other features of the INVESTOR are Bond News Department, its Insurance Department (which aims to be fresh, original and outspoken in its utterances); its Western, Southern and Foreign Correspondence; its Boston, New York and Philadelphia Stock Quotation Tables (the most unique of their kind in the United States), and its very complete tabulation of the Railroad Earnings of the Nation.

In a word, the INVESTOR aims to discuss current affairs with breadth of vision and microscopic insight, and to be of invaluable assistance to everyone interested in investments, or speculations, or material affairs generally.

A good operator in a business office can
do a day's work on the

Franklin Typewriter

in considerably less time than it would
take to do the same work on one of the
older style typewriters where the carriage
has to be lifted every time the work has
to be seen.

A man can dictate to a good stenogra-

him two days to write himself with pen
and ink.

THE GOVERNOR

of New Hampshire is chosen biennially according to Statute of June 1877, on the Tuesday next after the first Monday in November, by a majority vote. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes. The constitutional title of the Governor is *His Excellency*.

To be eligible to the office of Governor, one must be thirty years old, and an inhabitant of the State for seven years last preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate; and in case the offices of Governor and President of the Senate both become vacant, then the office of Governor is filled by the Speaker of the House of Representatives.

The Executive Council consists of five Councillors, elected by districts, at the same time and in the same manner as the Governor.

CHRISTIAN SCIENTISTS.

The Rev. Mary Baker G. Eddy, the discoverer and founder of Christian Science—which is now rapidly spreading itself over the civilized world as a just interpretation of the simple teachings of the Master—was born in the town of Bow, N. H., adjoining Concord, at which latter place she resides. The seed from which this great tree has grown began to take root in her mind and heart and life in 1866. In her own words she says, "In the latter part of 1866 I gained the scientific certainty that all causation was mind, and every effect a mental phenomenon." She began teaching Christian Science in 1867. In 1876 she formed the first Christian Science Association and was for years the editor and proprietor of the Christian Science Journal. Mrs. Eddy is the author of "Science and Health with Key to the Scriptures"—the only authoritative text-book and manual of Christian Science—of which system she is the great and logical exponent. The charter of the first church was obtained in June, 1879. It was

organized in Boston and Mrs. Eddy was called as its first pastor, being ordained in 1861. This year (1904) this Mother church has a membership of 28,000, and is rapidly growing. About seven hundred Christian Science churches and societies hold regular services; upwards of seventy church buildings have thus far been erected, and many more are in process of construction in this country and in Europe. The believers in Christian Science are estimated to number 700,000. There are in New Hampshire five incorporated churches of this denomination, and twelve more societies who are holding church services regularly.

The tax is paid to the towns in which the depositors reside; but in cases where depositors reside outside of the state, or where their residence is unknown, the tax is paid into the Literary Fund, of which each town receives its due share for the support of its public schools.

POSTAGE RATES.

All mailable matter is divided into four classes: First, written matter; second, periodical publications; third, miscellaneous printed matter; fourth, merchandise.

FIRST-CLASS MATTER.

Mailable matter of the first class embraces letters, postal cards, and all matters wholly or partly in writing, except as hereinafter provided.

Every letter, or written communication, any distance within the United States, Guam, Hawaii, Tutuila, (Samoa), Porto Rico and the Philippine Islands, 2 cents for each ounce or fraction thereof.

Drop letters, 1 cent for every ounce or less. At offices where free delivery by carrier is established, 2 cents for each ounce.

Book manuscript, manuscript for magazines, periodicals, newspapers, and music manuscript are now subject to full letter rates of postage, except they be accompanied by proof-sheets, or corrected proof-sheets, when the rate will be 1 cent for each two ounces or fractional part thereof.

Matter produced by the type-writer is subject to postage at letter rates.

Letters deposited at a post-office for mailing with less than one full letter rate of postage—2 cents, prepaid—will not be forwarded in the mails, but will be held for postage.

Matter produced by the electric pen and papyrograph processes, which is not in the nature of correspondence, may be received and transmitted in the mails at third-class rates, when properly presented for mailing.

Matter which is in writing, or other matter containing a written inscription in the nature of personal correspondence, or representing monetary value, and matter which is sealed against inspection, is first-class matter.

FORWARDING OF MAIL MATTER.

Postmasters will forward at the request of the party addressed, and without additional charge for postage, letters which have one full rate (2 cents) paid thereon, PARCELS PREPAID AT FIRST-CLASS RATES, postal cards, official matter, BUT ALL OTHER MAIL MATTER WHEN FORWARDED will be charged with additional postage at the rate that would be charged thereon if originally mailed at the office so forwarding the same.

A registered letter may be forwarded in accordance with the written request of the person named in the address, the same as any letters prepaid with one rate of postage, without additional charge for postage.

SECOND-CLASS MATTER.

MAILABLE MATTER of the second class embraces newspapers and other periodical publications, sent by publishers or news agents.

THIRD CLASS MATTER.

MAIL MATTER OF THE THIRD CLASS embraces books, circulars, proof-sheets, corrected proofsheets, with manuscript copy accompanying the same, photographs, and all matter of the same general character; and the rate is 1 cent for each two ounces or fractional part thereof.

The rate of postage on transient newspapers, periodicals,

and magazines is 1 cent for each four ounces or fractional part thereof. Seed, cuttings, bulbs, plants, are 2 oz. for 1 cent.

THE TERM CIRCULAR is defined to be a printed letter, which, according to internal evidence, is being sent in identical terms to several persons. A circular shall not lose its character as such, when the date and the name of the addressed and of the sender shall be therein written, nor by the correction of mere typographical errors in writing.

Upon matter of the third class, or upon the wrapper inclosing the same, may be written the name and address of the sender, preceded by the word "from;" simple marks may be made to call attention to any special word or sentence.

There may be written on the cover or blank leaves of any book or printed matter of this class, a simple manuscript dedication or inscription, that does not partake of the nature of personal correspondence. All packages of matter of the third class must be so wrapped, that their contents may be readily examined by postmasters.

FOURTH CLASS MATTER.

MAILABLE MATTER OF THE FOURTH CLASS embraces all matter not included in the first, second, or third classes, which is not in its form or nature liable to injure the contents of the mail bag, or harm the person. Postage rates thereon 1 cent for each ounce or fractional part thereof.

Upon any package of matter of the fourth class, the sender may write or print his name and address, preceded by the word "from," and there may be also written or printed the number and names of articles inclosed; and the sender thereof may write, or print upon, or attach to any such article, by tag or label, a mark, number, name or letter for purpose of description. The limit of weight of package is four pounds, and must be so wrapped that its contents can be examined by postmasters.

But if by inadvertence any article of the third or fourth class should reach the office of delivery without being prepaid, double the usual rates will be charged, to be collected on delivery.

CAUTION.

All parcels of merchandise and all printed documents sealed or pasted so as to prevent examination at the post-office, will be charged letter postage.

Letters addressed to initials or fictitious names, are not deliverable unless the address contains a designated place of delivery.

All domestic letters must be prepaid a full rate (3 cents), otherwise they are sent to the dead letter office.

THE UNIVERSAL POSTAL UNION.

The rates of postage for correspondence exchanged between the United States and countries included in the Universal Postal Union, are as follows:
